## **Business & Employment History**

### **2010 to present Nassimi Consulting.**

Product Development, Business Consultant

Litigation and Trial Expert Consultant and Testifying Witness

### **1993-2009 International Electronics, Inc. / Universal Wireless Solutions, Vancouver, Washington.**

Founder, CEO. Established a vertically integrated research and development, manufacturing and marketing organization. All aspects of the design were performed in-house. Established a highly automated production line, utilizing ultra high speed, state-of-the-art robotic equipment. Maintained extreme discipline in lean manufacturing, striving to achieve a \$2MM per employee sales volume.

Due to high degree of automation and low labor content in manufacturing and cost of sales, enjoyed a high EBITDA.

### **1990-1993 Impact Technology Inc, Los Angeles Ca.**

Founder, president. Designed a complete and sophisticated line of vehicle security and access control, such as VOSS, Phantom, Saturn, Solo, Mantis, SureStart. Performed and supervised circuit design, firmware in assembly language and mold and tooling designs for plastic housings.

### **1985-1990 Logitran, Los Angeles Ca.**

Founder, president. Established a multi-store vehicle electronics store chain, distributing and installing a multitude of vehicle entertainment and security products.

Established a self-branded product line, initially marketed and distributed through car dealerships only and later to the general public.

In addition, established a mobile installation organization for vehicle security systems throughout greater Los Angeles area. Logitran was sold in 1990 in an all-cash buyout.

### **1981-1985 Teledyne Controls Corp. Los Angeles, Ca.**

1981 to 1984, High speed data acquisition engineer. System integrator for high speed data acquisition systems based on Digital Equipment Corp (DEC) computer systems and especially designed high speed data acquisition equipment used in wind tunnels, such as NASA AIMS facility.

## **Education**

Northeastern University, Boston 1981 Electrical Engineering

Hancom Airforce Base, Boston 1981 Private Pilot

UCLA, Los Angeles 2009 School of the arts
